100 Units Planned In L.G. Building

Ground-breaking ceremonies for a 100 unit apartment complex in Lemon Grove were slated for Thursday at 11 a.m.

The million dollar project, a venture of the Dalgo Development Corp., will be built at London and Massachusetts. London is a new street being developed one block south of Broadway and east of Massachusetts.

Scheduled to be present at the ground-breaking are Forrest Baxter, president of the L.G. Chamber of Commerce, Barbara Fletcher, Miss Lemon Grove, and David Bird, County Supervisor. Also on hand will be Phillip Roach, president of the Dalgo firm. The firm is comprised of a combination of investors of Dallas and San Diego, hence the name Dalgo.

Spokesmen for the developers said the units of the apartment will be in the middle price range.

COUNCIL CANDIDATES SEE $350,000 INCOME FOR CITY OPERATION

Urging residents to register so that they may vote in the upcoming incorporation election Oct. 13 was a major topic at the second meeting of candidates for City Council of the proposed City of Lemon Grove.

Other items that came in for discussion on which the candidates were in agreement included:

That about $350,000 will be available annually to operate the City exclusive of property taxes. These sources include auto licenses, gas taxes, liquor taxes and licenses, sales taxes, and fines and forfeitures. These taxes are presently being paid to the County.

That all existing business property within the boundaries of the proposed City would remain as such. It is not within the power of the City Council to zone an existing business out of the City.

That the Lemon Grove Fire Department as presently organized was highly praised for its efficiency which resulted in lowered insurance premiums. Each candidate agreed to support the continuance of the department in its present form.

That the City, when formed, would operate under the Lakewood Plan. The plan provides for contracting city services such as police and road maintenance. The advantage, it was pointed out, would be to maintain local control.

That the sanitation, fire and school districts would be unaffected by incorporation and in all cases they would receive solid city support.

In attendance at the Friday meeting were Frank Gigliotti, William Ross, Blanche Davis, William Owens, Frank Armstrong, Jesse Lee, Robert Vaught, Forrest Baxter, Kenneth Conrad, Charles Hesser and Parker Shumate.

Candidates unable to attend: Kenneth Ostrander, Clifford Elkins, Paul Reynolds and Marion Morgan.

MAXIMUM EFFORT — Ten hoses hooked to pumpers of the Lemon Grove First District pour 2,780 gallons of water a minute into the summer sky during a training period last week.
It was the first such practice sessions utilizing the maximum effort of the Department and its three major pumpers. Object of the program is to train new call men, several of whom were recently hired in the Fire District's Call Man Training Program.
The project is under the direction of Fire Captain Harry Alexander, District training officer.

Contributions For Retarded Children Continue To Grow

Forty more families in the Spring Valley area are participating in the retarded children's playground equipment program sponsored by this newspaper.

The 40 listed in this column bring to 542 the number who have taken part in the project to this date.

A contribution ranging from 10c to $3.50 is being made to Angels Unaware for playground equipment for their day center at 1375 East Lexington ave., El Cajon. Angels Unaware is the East County Chapter of the San Diego Association of Retarded Children.

The smaller amount is contributed when a standing subscriber renews. The larger amount is given when a two-year subscription to this newspaper is taken out through the Angels Unaware group. Sales expenses are averted and passed on to the charitable group in the latter case.

The playground equipment will be purchased by members of the Angels Unaware organization after landscaping is completed this year.

So far, solicitors have been working in Spring Valley only. It is expected that nearly 1,000 families will have participated in the project by subscribing to the newspaper. The solicitors will then contact Lemon Grove families and another 1,000 subscribers are exected to be added to this newspaper's rolls. It is hoped that when the campaign is over, Angels Unaware will have its playground equipment and the circulation total of the newspaper will be about 12,000.

The newspaper is distributed by mail every Thursday.

SWEETWATER FREEWAY OPPOSITION GAINING

With increased enthusiasm and optimism, the Sweetwater group favoring construction of the eastern Route "B" of the State Highway Legislative Route 125 are in the final phase of their drive for signatures. Their petition opposes the selection of western route "C" which would come into Lemon Grove and converge with Freeway 94 in the vicinity of Mason's Feed Store.

Larry Hunter and Abe Mukai are co-chairmen of the Sweetwater group.

The County Planning Commission, after making exhaustive studies, went on record to recommend the eastern route which goes along the eastern side of Bancroft Drive in Spring Valley, the chairmen said. The eastern route will handle more traffic easier and will be a more direct route to Grossmont Summit. It will avoid the inevitable confusion and conjection in Lemon Grove on "94-67" caused by the proposal of the Highway Department to widen the present 6-lane freeway to 10 or 12 lanes.

District Engineer Jacob Dekema said the cost would be the same on either route and the distance would be equal.

More than 700 signatures have been obtained including some 45 Lemon Grove business establishments. The group urges those interested to write letters to the State Highway Engineer, Jacob Dekema, 4075 Taylor st., San Diego 12, by the 17th of this month.

Dixieland Jazz Opens Office Of Henry Boney

A crowd of over two hundred persons looked on as Henry Boney, candidate for supervisor, officially opened his campaign headquarters Friday night in La Mesa.

Boney was assisted in hosting the event by Patterson Hyndman, president of the San Diego County Board of Education, and general chairman of the Boney Campaign.

Well-wishers were treated to a Dixieland concert by ten banjo players and San Diego's official flowers, the Carnation, were given to all the ladies.

Boney promised his supporters that he would wage a vigorous, dynamic campaign and would personally call on from eight to ten thousand homes in his district.

Boney, who led a field of four in the primary election, faces incumbent David Bird in what promises to be a fiercely contested general election campaign.

Whale's Milk For Future Generation?

Ray Harter, a sales representative for the S.D. Health Association, told the Lemon Grove Men's Club Friday that "whale's milk may save the world".

His talk was humorous and facetious but it did carry some "facts". He said that whales (mothers) produce 50 gallons of milk a day containing 35% butterfat. The whale does the work of five cows and provides five times as much fat content, Harter said.

"Whale's milk for human consumption? Don't be repulsed. Cow's milk was originally intended for calves," he reminded the group.

He admitted that he was a Toastmaster's member and his "whale talk" had won for him several prizes.

In a more serious part of his talk, and not at all related, Harter told of his effort to get the County Board of Supervisors to consider making birth control information available to welfare recipients who wanted the information and could not afford to get it otherwise. He told of a study of a similar situation in a South Carolina community where 732 women on welfare produced 3,500 children. After control information was made available, the welfare bill was reduced a quarter of a million dollars, he said.

The welfare bill in San Diego County went from $19 million in 1955 to $42 million in 1964. 42% of the county budget is welfare, he added.

The Men's Club meets every Friday at noon at Michael's.

This week, Don Williams, assistant director of community relations for the Port of San Diego will provide the program.

SDG&E Encouraging Underground Service

Underground placement of wires and cables of the San Diego Gas and Electric Co. is becoming less costly, it was announced here last week by the utilities firm.

By placing gas, electric and telephone lines in a common trench, the underground installation might be under $180 per lot, spokesmen for the firm said.

The price is an estimate on new installations. A conversion job from overhead to underground would cost the resident $850 or more, plus the cost on whatever house-wiring changes that would be required.

El Trovador Wins Journalism Awards

El Trovador, Mount Miguel High School's campus newspaper has been awarded top national and international journalism awards.

The National Scholastic Press Association awarded the school paper its top award category, All-American. Judging was based on international first place from Quill and Scroll, an international society for honor journalists.

Dave Lewis, last year's editor, commented, "I believe that this accomplishment really shows the caliber and potential of the newspaper staff".

Fire Damages L.G. Home Of Vacationing Teacher

A suspicion of arson surrounds the burning of a house of a Lemon Grove school teacher it was revealed here Tuesday.

Lemon Grove Fire Marshal Ray Carmody said that the home of Mrs. Helen McFarland Tuve, 3211 Kempf st., was damaged severely in an early afternoon fire Saturday.

Mrs. Tuve was out of the city when the fire occurred but Marshal Carmody said that at lease one witness claims that the front door of the Tuve home was open on two occasions during the owner's absence.

"It was locked when she left and locked when she came home," Carmody said.

Damage to the house was estimated to be $6,000. The contents of the house were badly damaged. Firemen estimated that two-thirds of the contents were ruined. Insurance in the sum of $4,800 on the contents is carried, by Mrs. Tuve.

Firemen said the right rear corner of the house was gutted. They were hampered by the rooms being "jammed with clothes, papers and bolts of cloth" they reported.

Mrs. Tuve had been on vacation since July 28 but had returned to Lemon Grove Tuesday.

The alarm was turned in by Ella Evans who resides on the next street to the rear of the Tuves at 3211 Avacia.

Marshal Carmody is conducting an investigation.

Mayor Dail Aids Brother In Race For Assembly

Former Mayor of San Diego Charles C. Dail, recuperating from surgery, announced this week that he will act as campaign chairman for his brother, John Dail. John Dail is nominee for Assemblyman, 77th District.

Ex-Mayor Dail's first act as his brother's chairman was to aid in selection of co-chairmen for the South Bay District.

Mike McDini, well-known National City restaurateur; Bob McCorquodale and Bob McAllister, Chula Vista City councilmen, and Glenn Wade, former city manager of the City of Coronado and of Chula Vista, were those selected.

The former mayor said:

"McDini is an old friend of mine and to my knowledge has never served as co-chairman for any political candidate. John must have a good program because Mike's interest in the promotion of the South Bay is vigorous and sincere.

"Bob McAllister and Dan McCorquodale are tremendous campaigners and are wonderful assets to any candidate.

"Glenn Wade, I have known for years. His experience and knoweldge of the problems of the 77th, particularly the development of unified bay, are, in my opinion, invaluable to my brother's candidacy.

"I have many friends in the 77th and I ask them to rally round John's campaign. His highway development program and his sincere desire to be of service to his district are indicated by his programs for industrial development and the creation of a south bay sports committee."

John Dail said that he was very proud that his brother, Charles, had agreed to become his chairman. "I am also very much encouraged and with his help, I believe I can win," he said.

Public Meetings Set By Parents Group

Two Parents For Prayer meetings are scheduled this week. The first will be Thursday, Sept. 10, at St. John of the Cross Catholic Church in Lemon Grove. The three Parents For Prayer candidates will speak at the 8 p.m. meeting.

The second public meeting will be Tuesday, Sept. 15, at the La Mesa Dale School at 7:30.

David Bird Opens N.C. Office, Rejects Debate With Opponent

David W. Bird will formally open his campaign headquarters at 8th and Highland in National City, Friday evening.

Bird is running for re-election to the County Board of Supervisors from the 2nd District.

The public is welcome to meet Dave Bird at the formal opening.

"Our campaign strength is growing every day," Bird said. "The more people learn about the background of this race, the more they come to my support."

"I realize that an honorable record of hard work in office is in a way an intangible thing, that people sometimes take for granted. Too, people are accustomed to having county roads, sewer districts, airports, police and fire protection and all the things that are close to their daily lives, and sometimes they don't realize how much nailing together these things require.

"But the wonderful thing about the American voter is that if he is given the facts, he will reach the right conclusions," said Bird.

"I'm not looking for a gimmick", he said, "I'm running on my record. I am my record and my record is me. I think the voters in the Second District will appreciate this fact. The voters know that change just for the sake of change is a dangerous philosophy in politics."

Meanwhile, Bird announced that he will not debate with Henry Boney, his opponent, and will not appear on the same platform with him.

The announcement was made by Ralph Chapman and Glen Howell, Bird's campaign manager.

Bird is in Sacramento attending a meeting of the California Supervisors Association.

Chapman said, "If there is any group within the Second District that would like to hear Dave's views on county government, or if there is any group that would like to question Dave about his administration of the many State laws that affect counties in California, Dave will be glad to accept an invitation to appear before these groups."

"Dave Bird has carefully considered both the background of this campaign, and the money-laden maneuvers of his opponent, and has decided that he will not dignify his opponent by appearing with him before the public."

Your Concourse Opens Next Week

There's no question about it.

There's going to be a new economic era in the San Diego area after the $21.5 million Community Concourse opens next week.

At a briefing for community leaders in one of the meeting rooms of the huge facility last week, it was spelled out how the growing number of tourists would aid and stabilize the economy of the entire county.

Since 1960, when tourism brought $194 millions here the growth has been steady.

1961 — $212 millions
1962 — $225 millions
1963 — $228 millions

Every one of those dollars circulates among all businesses here. There is not a business firm in Spring Valley or Lemon Grove that does not capture some of that money. Maybe it's on the second or third bounce, but it flows into the local economic lifeblood steadily.

The Community Concourse on which we pin our economic hopes, is a complex. There's a 5,000 seat Convention Hall, an adjoining $4.1 million Exhibit Hall, and a 10 story parking garage for 1,000 cars. The two halls will provide an aggregate of 100,000 square feet of exhibit space.

Two other units of the Concourse which spreads over a three-block area bounded by 1st and 3rd aves. and A and B sts. will be opened later. One is the 14-level City Administration Building and a 3,000 seat Civic Theatre. The Administration Building opens in November; the theatre in January.

Not everything comes up roses for the handsome complex and the people who operate it, however.

When you buy new plants at your nursery the planting advice given you by your nurseryman usually includes the use of some form of Vitamin B1 to reduce the danger of transplant shock and to encourage new roots to form more rapidly. One product now sold in garden shops contains other aids in transplanting. These added enzymes and hormones used in connection with vitamin B1 seem to insure the start of the transplant when used according to the directions.

Is is not wise to use fertilizer with transplants because of the danger of burning the roots. Water, planting mixtures and vitamin B1 should suffice until the plants become established enough to absorb fertilizing material without damage.

Should you make the mistake of not using vitamin B1 and the foliage starts loosing vitality then the best thing to do would be to punch holes around the base of the plant with a spading fork or any other pronged tool that would leave fairly deep impressions in the soil. Pour a mixture of vitamin B1 and water into the punctures and allow time for the mixture to soak in. Fill in the saturated area and keep fairly moist for a few days. The same process should be used when moving plants from one location to another.

ated a grog shop in Lemon Grove for 7 years was tapped to be manager of the concessions just a few days ago. (He sold the grog shop for $49,500 last month). He told us about the liquor problem the Concourse people face. Their application for a liquor license has brought a strong protest. Who from? The San Diego Tavern Association people, of all people!

Tavern operators stand to profit from the people coming to San Diego conventions more than any other group, we suspect. Kerrigan said operators fear the Concourse will go all out for booze. He said the need for a liquor license has to do with selling beer at the sporting events (of which there will be many) and high quality libations for those attending the operas and musicales.

We cringe at the thought of any governmental agency going into the liquor business. We think they should not.

At least one caterer told us he would set up a bar, supply the booze and necessary personnel — all at Concourse set prices. He would come for only 3 people or as many as 5,000 while giving the city an agreeable percentage of the gross receipts. He suggested that the drink business be bid for— the same as on banquets.

We're sure Kerrigan will be able to get his troubles ironed out by the time the facility is going full tilt.

Meanwhile, the opening ceremonies are Tuesday at 5 p.m. and it is free to the public.

Attend it.

You'll be pleased and proud.

A banquet sponsored by the S.D. Convention and Tourist Bureau, is at 7:30 p.m. Tuesday but the charge is $10 a person. Reservations may be made now at the Bureau's office.

A private champagne reception will be held for those attending the banquet just before dinner.

Champagne, huh?

It looks like "Fast Ball" Kerrigan has already gotten drinks going pretty well at the Concourse.

New Image of Dick Wilson

They pumped vitamins into the speechifying of Dick Wilson, Republican candidate for Congress in the 37th District, and displayed the revitalized Wilson to nearly 400 of his fans one night last week at a dinner in his honor.

Despite a conflicting event — the Chargers banquet — the Wilson banquet room at the U.S. Grant hotel was nearly filled.

Wilson, for the first time in the years we've watched him and listened to him make speeches, gave the appearance of a candidate who made up his mind that he was going to win.

It ought to be recorded here that Wilson took a positive position on a wide range of issues. Because some of his words were so bright and well-edited, a couple of paragraphs from his speech are well worth the time it takes to read them.

He asked in his speech: "Why don't we protect the law abiding citizen instead of the criminal? As I talk . . . that good friend of the Administration, Billie Sol Estes, walks the streets of Texas, a free man. And Bobby Baker still roams the shores of the Potomac, presumably looking for deluxe motel sites in which he can invest the rest of the boodle.

"I don't like the idea of left-wingers and others trying to ram their pet schemes down our throats. For instance, they rammed the wheat program down the farmers' throats. They tell us we're poverty stricken whether we like it or not. Van Deerlin (Wilson's opponent U.S. Representative Lionel Van Deerlin) tells workers who lost their jobs at the Naval Repair Facility that they might as well get used to it.

"And now they're trying to cram Pierre Salinger down our throats. We resent it . . . and the natural result of such force feeding will be a powerful belch that will blow portly Pierre across the Potomac to his old Virginny home."

"Disgusting? Sure it is, and I pledge myself to do my utmost to restore honesty and decency to government in Washington."

Fine words, these. Many a politician mouths high sounding phrases only to fail in the performance. But, as it appeared to us, it was the first time that Wilson looked like he meant what he said.

When he returned to the trailer, he told officers, he was going to put the gun away and, not knowing if the safety were on or not, he aimed at the floor and pulled the trigger.

Youngsters were responsible this week for much of the activity of the Spring Valley Fire Department both in fire calls and ambulance runs.

A youngster was responsible for $175 fire damage to bedding and a mattress at the home of Mr. and Mrs. Vernon Ting, 4044 Calavo dr., on Sept. 1. The report was that the boy was on the bed playing with a cigarette lighter.

On the same day there was a small area of dry grass burned at 9307 Austin rd. Children playing with matches were possible cause of the fire.

On Sept. 2 at Buena Vista and So. Cordoba, a small area of dry grass burned, and children and matches were given as the cause.

Also on Sept. 2 a call came into the department from the Van Huizen home at 3644 So. Barcelona. Water leaking from from a fish bowl, ran down the wall and into an electrical outlet. Damage was confined to the outlet.

A car turned over in the drainage ditch along Bancroft dr. sending the driver to the hospital. On Sept. 5 at about 5 p.m., James McGuirk, 31, of 8764 Lamar st. was driving north on Bancroft dr. when his car went out of control and turned completely over in the ditch. McGuirk was seriously injured and taken to Naval Hospital. He was the 5th or 6th car to turn over in the ditch within the past ten years.

Also on Sept. 5. Mrs. Marjorie Pilling of 3985 El Canto dr., was given oxygen and taken to Grossmont Hospital, due to impaired breathing.

Two ambulance runs were made on Sept. 6. Douglas Saltus, 14-year-old son of Mr. and Mrs. Francis N. Saltus of 10704 Cristobal, was taken to Grossmont Hospital, due to sudden illness. Sheriff's deputies, later in the day found Howard T. Moore, 19, lying along the shoulder of Sweetwater rd. in the 800 block. He was taken to Grossmont Hospital, suffering from a possible heart attack.

Earl Riley of 3245 So. Bonita st. was taken to Grossmont Hospital on Sept. 7, due to a possible heart attack.

Mrs. Esther Marker of 3025 Helix st. was taken to Heartland Hospital during the week, due to possible heart attack. On the same day, 16-year old David Wiley, son of Mr. and Mrs. Jim Wiley of 3959 Rogers rd. had been working in a yard at 4048 Rogers rd. He apparently had an attack of sunstroke. He was taken to Lomita Medical Center after being administered oxygen.

Mrs. Bertha B. Poindexter of 1329 Cornwall was taken to Grossmont Hospital due to sudden illness.

Insurance Tax Rise Seen Here

LOS ANGELES — A warning that thousands of California employers may be faced with an increase in unemployment insurance taxes after the 1965 legislative session was issued last week by Donald T. Hanson, Crocket, chairman of the unemployment insurance committee of the California Manufacturers Association.

Hanson said that Governor Brown's recently announced proposal to increase benefits to $65 per week maximum, from the present $55 per week, would cost employers, who finance one hundred per cent of the program, at least another $60 million a year and probably more.

In 1963, he pointed out, employer taxes of $489.5 million were just short of $489.7 million the state department of employment paid out in benefits to jobless workers throughout the state.

The average employer tax is 3.0 per cent of taxable payrolls at the present time, he said, and one of the highest in the country.

"It is obvious," Hanson declared, "that any increase in the employee benefit will mean an increase in the unemployment insurance tax on employers, if the fund is to be maintained on a solvent basis."

One alternative to employer tax increases, Hanson said, would be an increase in the required previous earnings which an unemployed worker must have to qualify for unemployment insurance benefits. At present it takes only $600 of wages in a year to collect benefits. Tightening this provision of the law, Hanson said, could result in savings of millions of dollars and perhaps warrant some increase in benefits without an additional tax on employers.

Hardware Store Sold To Former S.F. Executive

Ernest C. Southard, former owner of the United Welding Co. of San Francisco, and more recently of Palm Springs, has purchased the hardware store operated in Lemon Grove by Lou Brouillard.

Brouillard, whose health has been ailing lately, said that his doctor had ordered him to retire from business. He said he planned to taken an extended rest.

Southard, whose firm operated successfully in San Francisco for 40 years, was distributor for welding tools, gases, materials and air reduction specialties.

His firm was distributor for Air Reduction Sales, Thor electric welding tools, and Behr-Manning abrasives. He sold his firm and moved to Palm Springs when his wife's health began to fail. The couple lived in various south west desert communities until his wife died in July. He is living presently in La Mesa but plans to move to Lemon Grove this fall.

Brouillard said that he would remain in the Lemon Grove area "for a long time" after he returns from a trip. "I want to be on call for the new owner," he said.

The same personnel and the inventory at the same level as before will be maintained by Southard, it was said.

FYOCK AT WORKSHOP

Robert Fyock, 7385 Central ave., Lemon Grove, is attending the Prudential Insurance Company's two-day Business Insurance Worshop, Sept. 10-11, at the Charter House in Anaheim, it was reported today.

Fyock is a special agent here for the Prudential's San Diego agency.

Around Spring Valley

By Tommy Thomas

It's school time again. And that means there will be kids all over the highways and byways. It also means that motorists will be asked to be especially careful about driving where school children may be apt to congregate or be on their way to school. We should be especially careful when we drive near a school bus.

Children with bicycles are always a problem. There are laws governing the operation of bicycles, but how many children obey them? Very few.

And for you kids who ride these bikes, you must obey the traffic laws just as the motorists do. You are to ride in the same direction as do the automobiles. You are also to use turning signals as do the drivers of cars. A bike is made to carry just one passenger. If you are uncertain about the laws and rules of safe bike riding, the Automobile Club has copies of these laws and rules as do the various law enforcement agencies. Get a copy. You'll be glad you did and so will your parents and teachers.

Another "first" for Spring Valley. Lee Moore, who has been operating the Diamond Taxi Company in National City for the past year-and-a-half, has moved part of his business into Spring Valley. His stand will be at Imperial ave. and Broadway in Lemon Grove. His cab will have a two-way radio, and service will be for the Casa de Oro area, La Presa area and the floor of the Valley. Lee Moore, a new member of the Spring Valley Chamber of Commerce, has a new 'phone number, 474-1544.

The Spring Valley Chamber of Commerce recently voted to sponsor a pictorial booth about Spring Valley at the opening of San Diego Concourse. The committee has prepared an exhibit and brochure to be handed out. The booth will be manned from Sept 15 through 20, 2 p.m. to 10 p.m. Help will be needed in the booth. For full information call Chamber Manager Tom Smith at 466-5736.

I see where the S.V. Kiwanis Club has acquired five new members: Al Burger, a social worker, living at 1040 Woodhaven, S.V.; Ronald L. Svalstad, of 856- Mellmarnin, La Mesa. He is an attorney; Glenn E. Munyon of 3235 Kenora dr. a loan counselor; Hank Richardson of 3387 Central, S.V., an insurance worker; and Keith S. Rose, a plumber, living at 4329 44th st., San Diego.

"We're going back to the old country for a while," said Harry Bridgeman recently. Bridgeman, owner of the New Era Market on Grand ave. in the La Presa area, said he and his wife have been planning such a trip for quite a while. The "Old Country" means Glasgow, Scotland.

Harry Bridgeman and his wife have been in the market business in La Presa area for about eleven years, five at New Era and six on Jamacha rd. near Gillespie. (That biulding has been torn down.) The Bridgeman store was the first such business in the La Presa area, Bridgeman said.

The New Era Market stock is being sold out, and the building is to be turned over to the Spring Valley V.F.W. Post 6474, about January or February, when the Bridgemans sail for Scotland. The post will use the building for their meeting hall.

"Hard work pays off," is the way Mrs. Al (Gerrie) Papike of 10624 Eureka rd. puts it.

Recently the eldest Papike son, Richard, 19, won a trip to the New York World's Fair and on to Europe. After leaving N.Y. he will fly to Amsterdam, Nethelands. Then take a boat down the Rhine River, visiting Germany, France and ending up in Switzerland. He will be gone about 15 days. He will be back in S.V. in time for the opening of Grossmont College.

How did Rich Papike win the trip? Seems he was top man in a sales promotion deal for an encyclopedia company. The program was for the entire Pacific Coast.

Gerrie Papike, son Larry and daughter Susie, recently returned home after a trip to Vancouver, B.C., where they picked up Gerrie's mother, Mrs. Ellen Godwin. Mrs. Godwin has been a frequent visitor to Our Valley. While north, the Papikes visited Victoria, Vancouver and Crater Lake. The trip home took them to Disneyland.

Many of you people, especially you interested in Mt. Miguel High School, will remember Linda Cavalier, daughter of Mr. and Mrs. Mel Cavalier of 2224 Central, S.V.

Linda, who graduated from Mt. Miguel High in June, was well known as an athlete and we were under the impression she would become a physical education teacher. Since her graduation all that has changed.

Linda has been studying to be a dental assistant. She will be graduated Sept. 11.

But the highlight of the whole story was made recently, when Linda, as part of the "Flying Samaritans" went on a mission of mercy about 200 miles below the border. When the medical personnel arrived in Mexico, they found approximately 300 Mexicans awaiting in painful condition. It was then Linda had her first experience at extracting teeth. The "Flying Samaritans" get no pay for their work. Their goal is to relieve the suffering.

ACCOUNTANTS' REPORT

The Board of Directors
Grossmont Hospital District

We have examined the balance sheet of the Grossmont Hospital District for the year ended June 30, 1964. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In accordance with practices common to hospitals which rely upon government support for capital improvements, the hospital keeps its accounts on the accrual basis and does not provide for depreciation of its basic hospital plant. However, a cash reserve is provided for the purchase or replacement of moveable equipment at the annual rate of 10% of the cost of the equipment.

In our opinion, the accompanying balance sheet presents fairly the financial position of each fund of the Grossmont Hospital District at June 30, 1964, in conformity with the above-mentioned basis, which is consistent with that of the preceding year.

A third Mustang model — the "2+2" fastback — joins hardtop and convertible Mustangs announced as the first of its 1965 cars by Ford Division last April. The new Mustang provides seating for four. Fold-down rear seats permit added luggage — including skis and other lengthy equipment — to be carried inside the car with driver and passenger. Functional air louvers styled into the rear roof quarter-panels provide an efficient, flow-through ventilation system for window-up driving free from wind noises and drafts in nearly all kinds of weather. Continued as standard equipment on all Mustangs are such sports and luxury features as bucket seats, molded nylon carpeting, floor mounted shift for both manual and automatic transmissions, all-vinyl interior, padded instrument panel, and full wheel covers.

The new Mustang "2+2" joins the 1965 Mustang hardtop and convertible models in Ford dealer showrooms Friday, September 25.

SCHOOL REDISTRICTING TO WAIT TWO YEARS IF VOTERS REJECT IT

Rejection by the voters of a school district unification plan approved by the State Board of Education means "back to the drawing board" for the County Committee on School District Organization of a two year wait to resubmit the same plan, Assemblyman Richard J. Donovan (R-77th District) advised area school administrators this week.

Donovan cited his authority a Legislative Counsel's Opinion which he had requested from Sacramento. Copies of the Opioion were distributed to school supervisors and board members throughout the 77th Assembly District represented by Donovan.

"The question of voter rejection of unification plans arose at a meeting of the Augmented County Committee when it met in Chula Vista," Donovan said. "I attended that Committee meeting to answer any questions that might arise as to the legislative intent of the school unification law (AB 145); however the procedure to follow if the electorate rejected the recommended plan was not clear enough".

Pros And Cons

The meeting to which Donovan referred was called to air the pros and cons of three proposed unification plans for the school districts in Chula Vista, National City, Imperial Beach and San Ysidro. Once a plan is agreed upon by the Augmented Committee, it must be submitted to the State Board of Education for approval, then to the voters for their endorsement. If the State Board rejects the approach used, the Augmented Committee can submit alternate plans, until one is acceptable to the State Board. The clouded issue developed when the question of the public's opposition to specific plans arose.

"The guidelines have been clearly laid out for unification of school districts," Donovan said. "It only remains for us to act. The Committee's responsibility will not end until voter approval of a plan is obtained."

Donovan pointed out emphatically that he was not an advocate of any specific plan proposed by the Augmented Committee. "This is a matter for the resident voters of the area to decide by ballot, and I do not think it proper for me to interject my personal opinions as a state legislator into a purely local matter," Donovan said.
